Memory refers to the processes used to acquire, store, retain and then later retrieve information. This activity tests your memory in a fun way – **all you need is a timer and a pencil!**

Here's how to play:

Below are 3 lists, each made up of 10 words.

Start with list **#1** and set your timer to **30 seconds**. Try to memorize the items on that list before time runs out.

When time is up, turn over and list and write down as many items as you can remember! See how well you did and score yourself out of 10.

Move on to list **#2**, only this time, set your timer to **20 seconds**.

When you're done, try list **#3** and set your timer for only **10 seconds**.

Have fun!
