

DIY Pumpkin Launcher

Try out this fun STEAM activity with a Halloween twist!

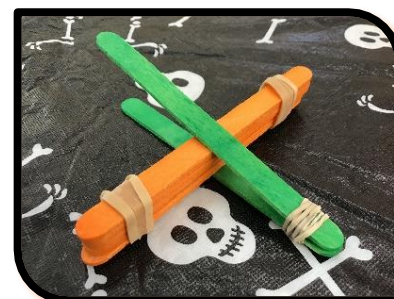

Supplies Needed

- Popsicle sticks
- Rubber bands
- Plastic spoon
- Pumpkin ball (or other small Halloween toys)

Directions

1. Make a stack of 7 popsicle sticks and secure them together with 2 rubber bands on both ends.
2. Make a stack of 2 popsicle sticks and tie them together on one side only.
3. Pull the two popsicle sticks apart and wedge the stack of 7 popsicle sticks between them.
4. Use two rubber bands to attach the plastic spoon to the upper popsicle stick.
5. Place your pumpkin onto the spoon.
6. Hold the catapult with one hand and use the other hand to push the spoon down.
7. Release the spoon and watch your pumpkin fly!
