

Glow in the Dark Slime

Watch this slime glow on a dark Halloween night.

Supplies Needed:

- 1 cup glow in the dark glue
- 1/8 cup white glue
- 1.5 tsp baking soda
- 1.5 tbsp contact lens solution
- Bowl
- Spoon

Directions:

1. Pour the glow in the dark glue and white glue into a bowl.
2. Add baking soda and contact lens solution.
3. Mix until the ingredients become harder to mix and slime begins to form.
4. Take the slime out and begin kneading with both your hands until the slime is ready.
5. Enjoy!

NOTES: If the slime is too sticky add a bit more contact lens solution (approximately $\frac{1}{4}$ tbsp) and knead.

Keep adding until desired slime consistency is achieved.
