

Jack-O-Lantern Lacing

A fun Halloween activity to help improve your little one's fine motor skills and hand-eye coordination.

Supplies Needed

- Cardstock - orange
- Hole Punch
- String
- Masking tape
- Marker - black
- Scissors

Directions:

1. Draw the outline of a pumpkin on a piece of orange cardstock and cut it out.
2. Use a hole punch to make holes around the perimeter of the pumpkin.
3. Draw a face onto the pumpkin to make it a jack-o-lantern.
4. Cut a long piece of string and tie one end to a hole in the jack-o-lantern. On the other end wrap a piece of masking tape around it to prevent it from fraying when lacing.
5. Have your little one start to lace the jack-o-lantern.
