

# Paper Strip Pumpkins

Create a Jack-O-Lantern using simple art materials.

## Supplies Needed:

- Scissors
- Glue or Tape
- Paper - Orange, Black & Green

## Directions:

1. Cut at least three long strips from a piece of orange paper. Strips between 8 - 12 inches work well for this activity.
2. Glue the strips together at the middle to make a star shape.
3. Bring the ends of the paper star together to make a sphere. Glue them in place to complete the body of your pumpkin.
4. Use the black and green paper to decorate the pumpkin however you like. Don't forget to give it a scary face!

What other Halloween decorations could you make with this activity?
