

Toilet Paper Mummy Challenge

Challenge:

Team up with partners and form two or more teams. Each team chooses 1 team player to act as the mummy. The other team players would be wrapping the partner chosen to be the mummy with toilet paper. Before they begin, they would need to estimate how much "linen" (or in our case) how many toilet paper squares would be needed to wrap the mummy. Work as a team to figure out the best strategy for your estimation to win this challenge.

Supplies Needed:

- Toilet paper rolls
- Tape (optional)
- 2 or more willing participants

Directions:

1. Estimate how many squares of toilet paper you will need to wrap your partner.
2. When all teams have their estimated number of squares, you can begin wrapping the "mummy".
3. The winning team is the one whose estimate is the closest to the number of squares used
